is Rayfast

Custom Design Services

IS-Rayfast specialise in providing harsh environment connectors and by working closely with our customers, bring value added benefits to the partnership by presenting totally niche designs or customisation of existing Mil-spec and high performance products. Our service helps to free our Customers up by taking the lead in the provision of design driven solutions to their challenges whilst paying great attention to the physical detail, durability, chemical resistance and hermetic sealing capability as well as addressing any temperature, vibration and EMI envelopes.
